#### **DESIGN APTITUDE TEST**

#### Question 1 (approx 15 minutes)

Marks 10 (Observation 5 and Skill 5)

Draw the <u>clutch</u> pencil you are using (the pencil which looks like a pen and graphite refill is used with it) in the rectangle '1' given below, enlarge and draw any one part of the pencil to show the details in rectangle '2' and write what do you like about the pencil in rectangle '3' in a minimum of 50 words.

1
2
3

Draw any two pairs of objects given in the list below.

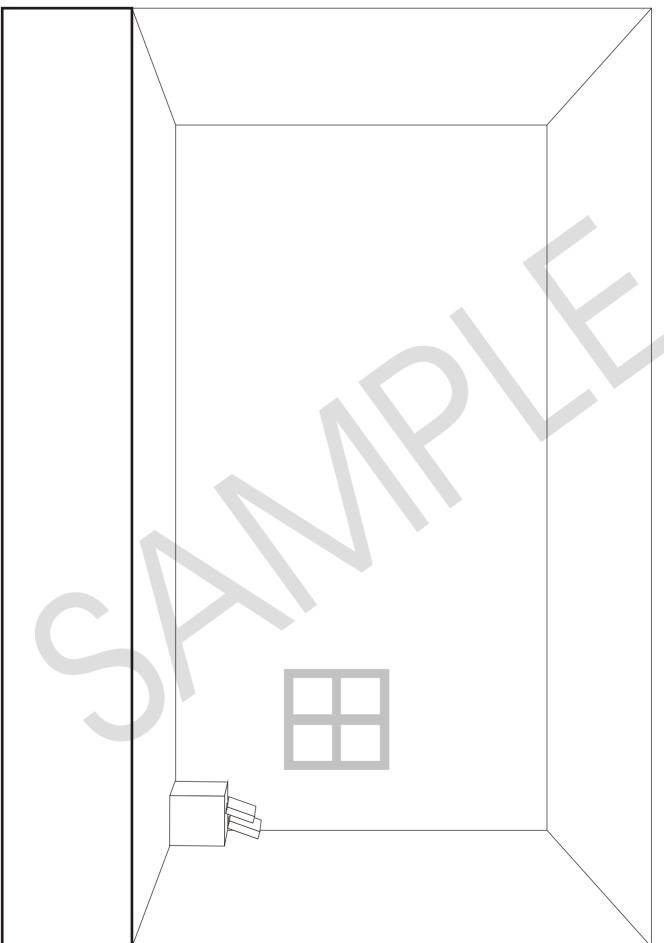

- 1. Nail polish bottle and hand 2. Dinner plate and spoon 3. Banana and apple
- 4. A cat and a mouse 6. Lawn tennis ball and table tennis ball

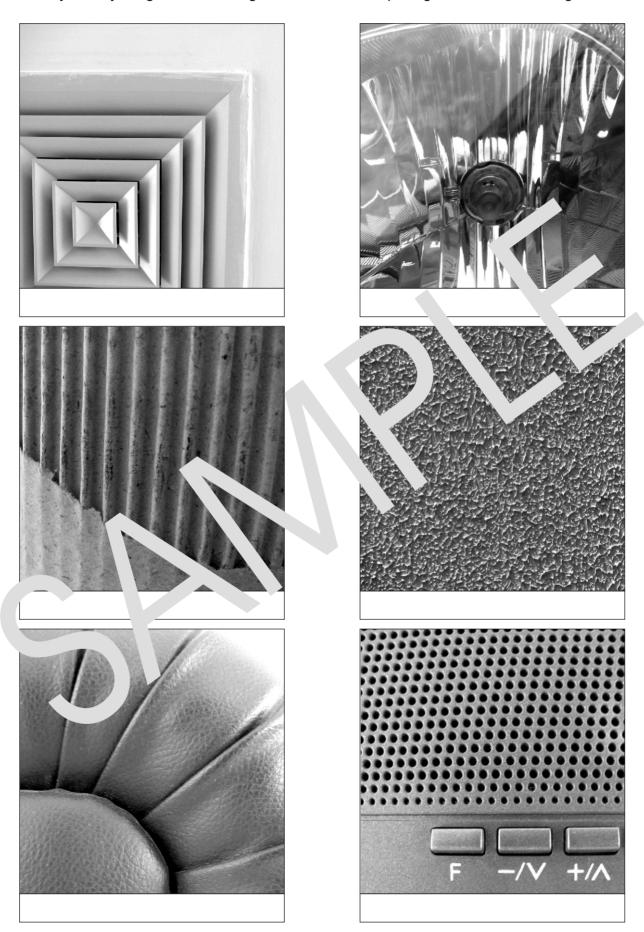

Draw two different ways of generating heat / energy. Example: A burning matchstick with match box

Imagine and draw the wall of a room in which a 4 year old child lives with his teen aged sibling. You are requested to use color to represent your idea as required. Write a short description of the room in the space given at the bottom of the page.

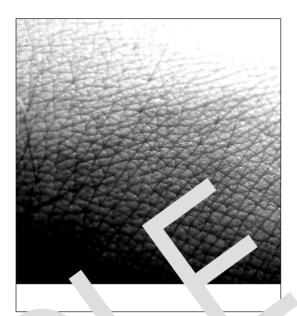

Identify the objects given in the images and write in the space given below each image.

### Question 5 Contd.

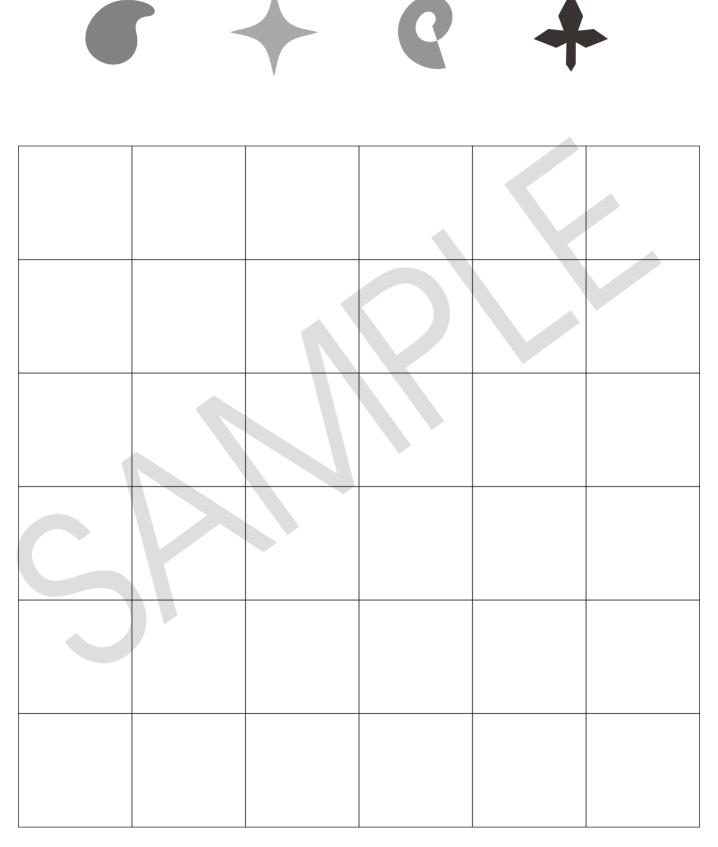

Draw an interesting pattern using the given motifs in the grid using only  $\underline{\text{colours}}$ . A combination of up to any two motifs can be used.

Your uncle has gifted you a baby elephant. You want to take her on a walk organized by your school to create awareness about the environment. Draw minimum three different accessories for your elephant to wear for the walk. Use of colours is important in the exercise

Using the sets of blocks given in the next page, create a Symmetric and sensible pattern in the grids given below. You can either draw the pattern in the given sets of blocks into the grid or you can cut and paste the blocks into the grid directly.
