Summary

Introduction

Your choice of subjects in Class 11 and 12 can make a tremendous difference to your overall performance in school exams and admission to college.

With the Subject Selector, you chose a scientific path by analysing your interests, strengths and future aspirations to make an informed decision about your subjects, and consequently, your college plans.

We are happy to have been your partner in this process of discovery and decision-making.

Combining your inputs about your strong and weak subjects with career recommendations from the Ideal Career Test, we provided you with a list of recommended subjects aligning with the top 3 careers of your choice. This was followed by a session with an expert career counsellor, where you had the opportunity to discuss your choices in detail and clarify your doubts.

Let's take a look now at the findings of the Subject Selection program and your way forward.

Current Academic Profile

While making decisions for the future, the first step is to understand your current academic performance. This includes your strengths, weaknesses and the kind of approach you've opted for during your schooling.

Here is an insight into your academic performance so far with your strong and weak subjects.

CLASS 10th CURRICULUM IB

SUBJECT	Points
