

NAME - TANTISH ZOPE

GRADE - IX

DIVISION - A

SUBJECT - ENGLISH

LANGUAGE

Roll No - 22

NAME OF PROJECT -

BUCKET LIST

ACADEMIC SESSION

2020-21

ACKNOWLEDGEMENT

THANKING:-

I wish to thank my mother for helping me in my project. I referred some books and internet sites like bucketlist.net, bucketlistjourney.net etc. to complete my project. I completed my project within 2-3 days and submitted it on 2 June, 2021.

INTRODUCTION:-

WHAT IS A BUCKETLIST?

It is a list of experiences, goals, dreams or achievements that a person hopes to have or accomplish during their lifetime. The basic meaning of a bucket list is to keep track of our goals and to take steps to achieving these goals in order to maximize the incredible experiences in our life. It is a personal journey between you and your aspirations. The word "bucket list" originated from the idiom "kick the bucket". Each one should be different because it is meant to reflect what you most desire in your own life. The important part is to come up with items that are meaningful to you; ones

that will inspire you wake up each morning with a fire in your belly.

IMPORTANCE OF BUCKET

LIST:-

Creating a bucket list can help you tap into the creative part of you that dreams bigger, nurtures your inner child and makes life more worthwhile, help to remember our goals, help to be creative, help to keep track of peak experiences. Making a bucket list allows us to reflect on our values and goals, and identify important milestones and experiences that we want to have in our lifetime. It helps us to focus on things, which are important to you - It surfaces the things which you truly desire, instead of things which you are supposed to do. It pushes the boundaries of our comfort zone. It makes you more interesting. It helps us to start a conversation. The confidence shows in our voice when you have experiences of fulfillment to share. It helps us to articulate what we have to explore, focuses our attention, helps us to pursue our dreams and passion.

5 THINGS I WISH TO DO IN MY FUTURE:-

1. I wish to become a scientist as I love learning about the planets and other celestial bodies in the space. Learning these things make me and my mind feel fresh. Understanding some of the fundamental units of life and the universe helps to increase our knowledge. We are having the freedom to plan and execute our work. We are getting paid to think logically and innovative about science.

2. I wish to do scuba diving as it seems both fun and entertaining, and I love water and swimming. I would love to see the world in the ocean with my own eyes. Through scuba diving, I would be able to witness a side to the world that many of us never get to see.

3. I wish to visit all continents and countries as I have always been interested in learning about different cultures, lifestyles, language and people. I want to gain more knowledge on new cities, their food culture and want to be outside my comfort zone.

4. I wish to learn strategy games like chess as it improves the mental thinking of the person. These games help us to train our mind, develop a anticipation of further issued and to think before I act.

5. I wish to visit Paris, the capital of France as no other city in Europe has a reputation for charisma character and art as Paris. And the city's fame is well earned. The city has two of the best sites in Europe with the Eiffel Tower and the Notre Dame. Paris also has the art museum, heavy hitter known as Louvre which I am very eager to visit.
