Dear Tanvi jain,

The success of the 'Message for life' community service project, organised by the Interact Club of the school during COVID times is a reflection of the ever increasing dedication and enthusiasm interactors' display on a continual basis.

The spirit of service above self was reflecting in your work throughout.

The project was an astounding success which can clearly be gauged by the amount of appreciation and messages of gratitude received by the school. The school appreciates your gift of time, dedication and enthusiastic support and strives to imbue the values of humanity in each of its pupil .

Wishing you the best always!

Principal
