

LETTER OF RECOMMENDATION

EarthAngels Welfare Foundation, an Indian non-profit organization registered as a section 8 company is a dream initiative that stemmed from a group of professionals who took a pause to find a reason for their existence on this earth and hence came up with the simple idea of giving back to society.

While we wanted to bring about an impactful change, taking the first step was the most important. We decided to let 'Sharing Joy' be the domain where we would take baby steps to realistically achieve the goal of bringing about a big change.

We invested our trust with our interns to understand and execute our vision which Ms. Sanjini Gala fulfilled wholeheartedly and diligently. We are proud to announce that they have turned out to be a total asset to our organization. The fact that they understood and made all our initiatives, missions their own is something we commend and is a testament to her dedication. One can totally be dependent on her as they know and accomplish their responsibility really well.

One can call such a person a perfect combination of both hard and smart work.

When given the opportunity, the following person exhibits creativity and time management skills at its best. Right from utilizing flexible working hours to giving out of the box ideas; everything counted.

We look forward to many such interns working with us in the future.
