Portfolio

Topic: Covid scenario in punjab

Objective: To find the probability of affected, non-affected, vaccinated, succumbed people of punjab

Source of Information: ① NHM.PUNJAB.IN
② WWW.Hindustantimes.com

Procedure:

→ Total population of punjab: 30,41,373

→ Number of population of punjab affected by covid: 61

→ Number of people of punjab who are not affected by covid:
: 2,95,40,403

→ Number of people of punjab who are vaccinated: 16,14,950

→ Number of people who are succumbed due to covid
in punjab: 16,453

Probability

"People affected by covid": $\frac{\text{People affected by covid}}{\text{Total population}}$

$$= \frac{600470}{30141373} = 0.0199 //$$

People not affected by covid": $\frac{\text{People not affected by covid}}{\text{Total Population}}$

$$= \frac{29540403}{30141373}$$

$$= 0.9800 //$$

"People succumbed by covid" = $\frac{\text{People succumbed by covid}}{\text{Total population}}$

$$= \frac{16453}{30141373} = 0.0005 //$$

People who are vaccinated = $\frac{\text{Total people who are vaccinated}}{\text{Total population}}$

$$= \frac{16114950}{30141373}$$

$$= 0.5346$$
