Hi Bhaumika,

Hope you are well and safe.

The **Youth care network** is a national network of youth leaders who are empowered with the skills and information to provide psychosocial support to young people within their networks or communities. As a part of this initiative we are conducting training sessions that will equip young leaders with the necessary skills and information.

We are **inviting you to the Youth Care network as school representatives** and be participants in these training sessions. We hope these sessions will help you not just learn new skills but also evolve into a better equipped youth leader. Post the sessions we can have a detailed discussion to see how you want to take it forward in terms of outreach engagements within your school networks.

Please find attached the training schedule for the initial five sessions. **The first session is scheduled for 21st September, 2020 (10:30am-12:30pm)**

**The zoom link for all the training sessions is :**

<https://us02web.zoom.us/j/83090460343>

In case you are unable to attend some of the sessions please do let us know beforehand. And if you have any other queries feel free to reach out to me.

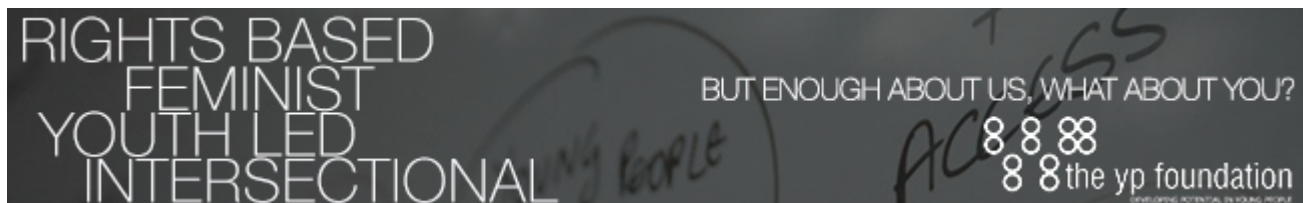

Regards

Hitha

Programme Consultant

YOUth Care Network

The YP Foundation

Developing youth leadership to advance the rights of young women, girls, and other marginalised youth.
