# VIRTUAL INTERNSHIP PROGRAM (VIP)™

The Virtual Internship Program is a first-of-its-kind simulated internship experience from Immrse Education. This innovative platform provides experiential learning for students. It helps them experience different careers through a 1-2 hour interactive program, which gives a focused approach and holistic experience of their careers.

For instance, an Architecture aspirant can perform the tasks of an Architect in a simulated environment. On the same lines, students aspiring for different careers can get a first-hand experience through VIP. The platform enables students to experience **18 career options.**

How does VIP work?

- Computer Simulation
- Engaging Videos
- Learn from Industry Experts

Students taking up the Virtual Internship Program (VIP)™ get access to career activities, video sessions and post all the simulations get access to the VIP report.

What is the VIP Report?

VIP report gives a detailed analysis on the skills of the student in that particular profession based on the performance in the simulations.

Information covered here includes:

- Industry Scope
- Educational Pathways
- Vital Professional Details
- Placement Opportunities
- Entry Level Salary
  And more…
