## EXPERT TALK

“**Univariety** refers to the informative platform which provides uniqueness of different varied careers we aspire for. Our school makes use of this platform for our students, who benefit by making informed career choices. To make sure that students have clarity of thought, career counsellors are available for each and every student at all times while they are in high school to receive the latest and correct career advice. Profile creation is done by students in real time using this platform.

It also incorporates our alumni data which helps juniors to connect with their seniors. The platform enables our students to attend webinars where they can connect with industry experts and know more about a range of topics like course selection, college guidance, etc. Also, awareness programs are conducted for students and parents to help them in best-fit career and college selection. They also get information about scholarships at different colleges/ financial aid which helps them to make a better decision. We conduct workshops for students section-wise for choosing careers which interests them and where they can excel.”

**Univariety is India's first company** to use technology to setup a complete career & college guidance cell inside progressive schools. Students receive guidance from counsellors, digital tools, university admission officers and from the past students of the school. Univariety runs a successful Global Career Counsellor program for certifying teachers in association with a top University - UCLA Extension. Univariety has proved to be a comprehensive partner for schools wanting to go beyond the regular and focus on student success.
