ALUMNI

I started studying for Board examinations from January... for difficult subjects like Economics, I kept on practicing the sums. My advice is to not skip any of the topics, be relaxed and don't be stressed out. Do whatever relaxes you and please do not miss out on your sleep before the exam...

SCHOOL TESTIMONIAL

We have for the past four years partnered with Univariety for guiding and identifying Higher Education opportunities for our students of grades 11, 12 and also some students of 9 and 10 who opted for it, the students have found the service helpful and beneficial.

Univariety has also supported students in understanding the challenges of the 21st century and broadening their knowledge of our changing job world. Their regular counselling along with identification of competencies and skills, then matching the skills and competencies with the possible career option/s have helped students gain clarity in their thoughts and plans.

During our interactions with all the representatives of Univariety I have found them to be very forthcoming, responsive and helpful. It has been a pleasure being associated with them and hence it has also been a fruitful association.
