

STATEMENT OF PURPOSE

Suze Orman a world renowned financial advisor once said "In all realms of life it takes courage to stretch your limits, express your power, and fulfill your potential. It's no different in the financial realm".

Finance, Business and Economics are the major driving forces for the development of a nation. Business and Economics have eradicated trade barriers and have taken the exchange of goods and services to a global level. We have seen remarkable changes in the financial arena and their powerful effects on today's fast paced world. When I was taught about Globalization in the ninth grade I was highly fascinated. I realized I was passionate about learning how the field of commerce works. I was intrigued and I found myself going beyond the textbooks. It eventually paved the way for me to embrace Finance, Business and Economics. I enrolled myself in a financial literacy program which instilled in me the confidence that I was treading on the right path. As a child I always wanted a career related to mathematics as I had a natural aptitude for this subject. Mathematics has further enhanced my logical and analytical skills

Nelson Mandela a South African anti-apartheid revolutionary and politician once said "Education is the most powerful weapon which you can use to change the world". UK has always been my favorite destination as it offers a plethora of opportunities to international students. A UK Education places great emphasis on quality and all round development which would help me develop analytical skills and problem-solving abilities. British education with its long academic heritage has attracted international students for generations. UK with its cultural diversity and vibrant history promises growth and improvement. UK is a host in all facets, with independence for all to pursue their passions.

I have developed the essential requisites of life by actively contributing to various social issues. I have worked with Apollo Hospital a well established hospital in the social services department and devoted time to Blue Cross a voluntary organization to help animals. Being a part of the student cabinet for two years successively I have learnt to head a large and diverse group of students. My presentation and organizational skills have been further enhanced by heading the literary committee.

I was extremely delighted when I was chosen to be a part of an exchange program to Thayer Academy in Boston. I experienced a holistic approach to learning as there was strong emphasis on overall development of individuality. Interacting with different people and understanding their cultural aspects and social structure gave me immense satisfaction. I realized that education at a global platform would help me pursue different milestones in life.

UK institutions ensure academic excellence and maintain high standards for research and development. Universities in UK transform students to face the dynamic business environment and make remarkable progress in every sphere of life. The career opportunities offered are unique and it would help me perform in a highly competitive global market. The well connected alumni network represents strength and unity. The UK schools have a world class faculty who teach and inspire students to discover their true potential and pursue their dreams. UK Business schools would help me attain the right qualifications desired by employers throughout the world. The broad curriculum offered by UK institutes would help me gain professional skills and greater expertise in work places. These are few among the various factors which instilled in me a deep desire to be a part of this distinguished academic heritage.

In an atmosphere of multicultural and multilingual co-existence from various parts of the globe and a very good academic platform provided by the UK University's, I believe it is possible for me to achieve

overall excellence. Education in UK will broaden my horizon and definitely propel my career to great heights.
