

"Virtual Internship Program in Psychology, Fashion Designing and Filmmaking gave me a better experience of what to expect in these fields. I was given topics and tasks that I would have to do, along with various assignments to check my progress. I feel confident about what I like and what to choose in the future."

"I really enjoyed my online internship in Psychology, it was very interactive. During this tough time when all we have to do is sit at home, we don't really have anything constructive to do. Virtual Internship Program is a great idea, it kept me engaged and I also gained knowledge and virtual experience in the field of Psychology."

SAANVI SHELATKAR - GRADE 11
Trinity International School, Mumbai

"I found the Virtual Internship Program to be very helpful. It gave me thorough information about the role of a Fund Manager and Computer Engineer. The program also helped me gain deep knowledge of the field, thus helping me make a better decision. I was also rewarded with a certificate that will be helpful in making my base stronger. I would like to thank my Counsellor from Univariety for guiding me through such a wonderful program."

TEJASAV TANDON - GRADE 11
Sherwood College, Nainital

"Virtual Internship Program (VIP) was a brain booster for me! It was a great experience with a truckload of learnings. I'm glad I have a Counsellor who was aware of my interests and selected the right VIPs for me. They have given me the fieldwork knowledge for Computer Engineering and Graphic Designing. Now I'm well aware of the career problems faced in the industry."
