Jindal Global Summer School

Aspire India Scholars Programme

for High School Students
(IX, X, XI & XII)

3 June – 17 June 2018

INTERNATIONAL INSTITUTE FOR
HIGHER EDUCATION RESEARCH &
CAPACITY BUILDING
Institution Building for Nation Building
O.P. JINDAL GLOBAL UNIVERSITY

www.summer.jgu.edu.in

Welcome

Welcome to Jindal Global Summer School (JGSS), the Aspire India Scholars Programme (AISP) 2018. What you have in two weeks is a unique opportunity to have fun, learn new things, make friends and in the process embark on a great voyage of self-discovery. What interests me? What are the opportunities available out there? How do I take on this highly exciting future? The summer school will try and help you find answers to these and many other such questions. So, get prepared for a very exciting journey!

Aspire India Scholars Programme Vision

The Aspire India Scholars Programme (AISP) aims to develop young leaders who are equipped to meet the challenges of a rapidly changing world and play leading roles in public life. Through a range of educational and capacity building activities, the AISP reaches out to students, young professionals, and educational leaders in India and abroad.

Jindal Global Summer School Vision

The JGSS provides high school students with a globally oriented academic engagement designed to prepare them for the critical transition to higher education, which can help build satisfying careers and meaningful lives. In addition to academic instruction in eight major fields, and the chance to participate in a variety of creative pursuits and outdoor activities, participants will receive counselling, mentoring with respect to higher education, and career planning that includes aptitude-testing, individual career counselling, and sessions on strategising for success.

Curriculum

Our curriculum offers an integrated learning experience that bridges the divide between theory and practice. For each of the areas listed below, participants will learn through interactive conceptual discussions and hands-on activities. Participants will also receive mentoring from accomplished professionals, as well as, get the chance to interact with exemplary role models in each field.

Interdisciplinarity

The boundaries between disciplines that were sacrosanct not even a decade ago have now been transformed by a concerted thrust towards interdisciplinarity. The changing global climate requires professionals who are equipped to deal with this constant interaction between conventional areas of knowledge and expertise, and the needs of contemporary times.

The summer school curriculum is alive to this fact and each of the academic modules encourages students to develop a capacity for drawing on intellectual resources and skills from a variety of disciplines.

The summer school curriculum will provide global perspectives, holistic learning, and ethical engagement to guide students through their crucial transition from high school to higher education.

Curriculum & Course Outline

Law, Justice, and Democracy (LJD)

Law is one of the most exciting career options available to young people. Lawyers work in board rooms, diplomatic missions, conflict zones, and are even working on issues regarding the oceans and outer space. The summer school will expose young minds to this wonderful new world.

Business Management, Leadership, and Entrepreneurship (BLE)

Across the world today, and nowhere more so than in India, undreamt of opportunities are available to those prepared to take new initiatives and think out of the box. How does one take these risks in a calculated manner? What are the ground rules in this brave new world? Young minds will soak in these lessons at the summer school.

Diplomacy, International Relations, and Peace (DIP)

Today more than ever, countries are hugely interconnected. No amount of technology can, however, replace the need for trained communicators and negotiators – who can enable dialogue among different countries. Excellent career options exist in diplomacy and international relations. Join the summer school to find out more about them.

Economy, Public Policy, and Development (EPD)

India is leading the way in redefining the manner in which the state and market are interrelated. This means that top-class thinkers, policy makers, and planners are required for nation building. The summer school will inform participants about the opportunities in this hugely challenging area.

Liberal Arts, Culture, and Humanities (LCH)

Our highly techno-centric age requires leaders and citizens with broad perspectives – people who understand the nuances of different cultures and their identities, and are able to facilitate understanding and communication between them. The liberal arts programme aims at training young minds who have such a world-view, and the summer school will give them a peep into this opportunities-laden universe.

Media, Communication, and Public Affairs (MCPA)

The critical role of media in shaping public opinion, and indeed government policy, is all too apparent. Young minds need to know about how this immensely powerful medium is structured, operated and what amazing possibilities exist for them in these areas. The summer school will guide the young participants through this complex and challenging world.

Architecture, Planning, and Sustainability (APS)

The summer school will address most critical aspects of urbanization and its implications for issues relating to sustainability, planning and the future of cities. It will provide perspective to young minds about the history of architectural imaginations, planning perspectives, sustainability, traditional Indian settlement and their relationship to modern architectural design.

Banking, Finance, and Accounting (BFA)

An introduction to global phenomenon of banking and finance such as accounting, compliance, insurance, infrastructure development, and project finance is the need of global young citizen. The summer school will expose the young minds with the specialized learning in banking, finance and related areas.

“The highest education is that which does not merely give us information but makes our life in harmony with all existence.”

Rabindranath Tagore

INTERNATIONAL COLLABORATIONS

JGU has built robust collaborations with leading global universities, research organisations and think-tanks in many countries with the objective of providing a seamless environment beyond national boundaries for teaching, learning, and research.

JGU has established international collaborations with over 200 universities and higher education institutions in 50 countries. These collaborations have taken one or more of the following 10 different forms:

- *Faculty Exchange/ Visiting Scholars*
- *International Student Exchanges*
- *Study Abroad Programmes*
- *Dual Degree Programmes*
- *Summer and Winter Schools*
- *Joint Teaching*
- *Joint Research Collaborations*
- *Joint Conferences/ Seminars*
- *Joint Publications*
- *Joint Executive Education Programmes*

Each year around 30 international students from 20 countries choose to study with us

SUMMER SCHOOL FACULTY

The JGSS faculty members are selected across all schools of O.P. Jindal Global University (JGU) and other reputed universities in India, and in collaboration with top notch faculty members from some of the leading universities of the world such as Harvard, Yale, Columbia, MIT, Michigan, Cornell, UC- Berkeley, Oxford and Cambridge. They are practitioners across different disciplines and backgrounds. All faculty members have outstanding educational qualifications, global orientation, stellar publication record, and relevant work experience.

At JGU, nearly 75% faculty members have international qualifications from the leading universities of the world. Almost 20% of the full time faculty members are international, coming from countries and regions such as Afghanistan, Australia, Brazil, Bulgaria, Canada, China, France, Germany, Hong Kong, Iceland, Israel, Italy, Japan, Netherlands, New Zealand, Russia, Ukraine, United Kingdom, and the United States of America.

STUDENT MENTORS

The Student Mentors are some of the JGU's finest students, carefully chosen from all the schools of JGU, after a rigorous selection process. These Student Mentors will assist the Aspire India Scholars to have a meaningful experience during their stay at JGU campus. They will make sure that the scholars accomplish the real objective behind the summer school. They have been trained to take care of and to work with the high school students.

The aim is to provide scholars an opportunity to interact with the JGU students and to learn about the mentor's experience and campus life. The Student Mentors will be closely engaged with the scholars for the entire duration of the programme that includes lectures, workshop, Aspire India Ambassadors talk series, sports and cultural activities.

ASPIRE INDIA AMBASSADORS

The Aspire India Ambassadors are young achievers from different professional fields – media and communications, creative writing, publishing, law, business, social entrepreneurship, architecture, banking, public diplomacy and international relations. These youth achievers will address the summer school students to share their challenges of transition from high school to higher education. Students will learn about their failures, which eventually became pillars of their success. The aim is to provide scholars with an opportunity to interact with role models who are closer to their age group and who have been through these crucial phase of transition from high school to higher education, not too long ago.

The JGSS will have a number of such young achievers as Aspire India Ambassadors to speak and interact with scholars as guest speakers.

Some of the Aspire India Ambassadors from 2017 are as follow:

Garima Kaur
Programme Officer
Girls Count

Kashish Badar
Communication Officer
Girls Count

Rashmi Bansal
Author and Owner, 'Bloody Good Book',
(an e-publishing house for youth)

Anshul Tiwari
CEO, Youth Ki Awaz and
Ashoka Fellow for Social Entrepreneurship

Tarun Cherukuri
Founder & CEO
IndusAction

Life @ JGU

Living on Campus

JGU is located on a 80-acre residential campus in the National Capital Region (NCR) of Delhi. The campus was designed by the award-winning French architect Stephane Paumier, whose projects include the Alliance Française complex and the Air Force Museum in New Delhi.

Amenities on campus include fully air-conditioned hostels, academic blocks, top-of-the-line catering and housekeeping. The university has state-of-the-art Infrastructure that facilitates a comfortable and academically vibrant environment for students and staff.

The entire campus is Wi-Fi enabled. Smoking and alcohol consumption is strictly prohibited on campus. JGU is committed to making the campus disabled-friendly. Ramps, elevators, special washrooms, etc are an integral part of the university infrastructure. With students coming from different parts of the country and the world, the JGU community is diverse and exciting, allowing students to learn, be challenged, and have fun both inside and outside the classroom.

The safety of our students is of paramount importance to us. To ensure a safe campus for students and staff, JGU has a robust security system. The campus is manned round the clock by well-trained male and female security staff. Surveillance cameras are placed at strategic spots, including access points.

Student Residence

The residential facilities at JGU provide living space for 3,500 students, with generous en-suite bedrooms, shared bathroom (toilets, washbasins, shower), common kitchens on every floor and common rooms in each hostel. The buildings are equipped with state-of-the-art teaching and IT facilities that meet the student's learning and professional development needs. All study rooms have free access to the web. The university also provides single-gender residential accommodation for its students in its Halls of Residence in a comfortable, modern, self-contained living environment.

Dining

JGU has three dining halls where breakfast, lunch, evening snacks and dinner are served on all days, including weekends. Three nutritious meals as well as snacks are provided each day. Vegetarian meals, including eggs in certain meals are served in the dining hall. To ensure best catering, the university has employed the services of Sodexo, the French multinational that is one of the largest food services and facilities management companies in the world.

Non-vegetarian food and fast food is available in the campus food court, Biswamil Bistro. It has popular outlets such as Subway, 34 Chowringhee Lane, Moti Mahal, Keventers, Bercos, Dominos, Punjab Grill and a Food Truck. It remains open from 12 noon to midnight. Café Coffee Day, Juice & More, Nestle Coffee shop and Amul ice cream parlour are some of the other options available. Vending machines dispensing cold drinks, snacks, etc are also installed in all hostels and academic block.

The summer school will be an activity-packed event. The scholars will be accommodated in university. An experienced team of summer school staff will provide support and care round the clock for scholars.

Resources @ JGU

Library • IT Resources
Student Residence
Dining Halls and other eateries
Healthcare • Sports Facilities
Fitness and Health • Laundry • ATM
Postal and Courier Services
Convenience Store • Transport Facilities
Campus Security
Pharmacy • Swimming Pool

HAVE FUN & LEARN

The summer school will be energising for all student participants. There are activities to suit every student's interest and aptitude – academic, cultural and sporting. All events and activities will be highly participatory and inclusive in nature.

Evenings and weekends will therefore be devoted to a wide range of social, cultural, and sporting activities on the campus. The goal is to provide a holistic experience of studying and living in a fully residential university, and to develop a wide range of critical life skills.

STUDENT REFLECTIONS

2017 BATCH

"As a science student I didn't really think a subject like law would capture my interest. But, with a well-versed Professor like Mr. Aditya Swarup, the classes we had were entertaining and made me reconsider my thoughts on a lot of social issues. I enjoyed his class activities, especially the one where we had to express our views on a specific issue like death penalty, beef-ban etc. I think those were engaging and brought out the debating and analytical skills I was sure I never had. On the whole, I gained a lot of knowledge on various aspects as far as the social history and moral values of law are concerned."

Tejaswini Vondivillam

Oakridge International School, Hyderabad

"Business Management, Leadership and Entrepreneurship was a super interesting module. We learnt about various levels of business organizations. My favourite was the group activity. It was super fun and it came out to be a productive activity, as it helped us to understand all the theory we were studying by making us experience it. Prof. Asim Talukdar and Prof. Manisha Mishra were very friendly. It was fun learning."

Raunak Chopra

Hansraj Model School, New Delhi

"I had always assumed International relations to be a subject where my interest level would be below minus. The topic we discussed was realism and liberalism, and it turned out to be quite interesting. Therefore, I have developed interest in international relations. I was interested in the case study we had for extensive discussion- i.e. Cuban missiles crises. Being an ex- IGCSE History student it was enthralling to be mindful of some shocking revelations regarding the case study through a documentary. Therefore, I am very excited to explore more in the same field as I have chosen International Relations as my module choice."

Sanskriti Rastogi

Pathways School, Noida

"In the module on Economy, Public Policy & Development, we were introduced to the idea of inequality through the eyes of economics. We learnt about the National Income and the NFYA (Net Factor Income from Abroad). We also learnt that according to standard economics theory people should be compensated according to their productivity. We discussed whether Inequality was necessary for the country. This led us into discussing how to form public policy to develop the country. All these ideas opened my eyes to the current situation of our country. The best thing was the group activity where we had to throw paper balls from where we were sitting with a set of rules that helped us experience inequality at first hand. I really loved these classes as they were my first tryst with economics and I hope to learn a lot more about it in the future."

Ajay Rajnikanth

Suguna Pip School, Coimbatore

"In the Media & Communications module we were taught about journalism and Bollywood. We were also made aware of how Globalisation affected Bollywood, as movies were being shot in foreign locations and how they were more effective to people's imagination and built a connection with NRI's. Then we learnt about advertising and all these classes were pretty interesting and it was well connected with business and it teaches how it will help make a business a well-established one."

Vedika Ajay Agarwal

Fountainhead School, Surat

"The Module on Liberal arts & Humanities was possibly one of the best in the programme. I truly enjoyed all the teaching interactions, which allowed us to look at all kinds of supposedly "bizarre" questions, such as "what makes a man masculine?" and "is being homosexual biological or simply due to conditioning?" We also studied aspects of popular culture, including Bollywood and it became absolutely exciting. In one of the classes, we also examined Dr. Martin Luther King Jr's "I have a Dream" speech, which was extremely inspiring."

Aakriti Tewari

Pathways School, Noida

Leadership & Management at JGU

Professor (Dr.) C. Raj Kumar
LL.B. (Delhi), B.C.L. (Oxford), LL.M. (Harvard),
S.J.D. (Hong Kong)

Apply

Eligibility

Students who are currently pursuing class 9,10,11 and 12 are eligible to apply regardless of the board or school they are studying in.

Admission Process

Admission shall be based on the assessment of the essay and short responses provided by the applicants. Seats are limited and admission shall be granted based on early registration and timely payment of programme fees online, by Bank Transfer / Demand Draft.

Registration for the summer school can be done in one of the following ways:

- ➔ Fill the application form online and make the online payment.
- ➔ Download and fill the Application form (PDF), and send it to us by post or courier along with the payment details.
- ➔ Download and fill the Application form (PDF), and email it to us along with the payment details.

Application deadline: 25 March 2018

Applications received after the priority deadline of 25 March 2018 will be admitted on a rolling basis, meaning we will continue to review applications for Aspire India Scholars Programme (AISP) seats not yet filled.

Note: Only one application per candidate will be accepted for the forthcoming AISP intake. Unsuccessful candidates are welcome to apply again next year.

Programme Duration

The Summer School is a two-week fully residential programme at the O. P. Jindal Global University located in Sonipat, NCR of Delhi.

3 June – 17 June 2018

Programme Fee: ₹ 30,000 per student

The following are included in the Fee:

Tuition • Course material • Workshops • Field trip • Counselling • Social and cultural activities • Tutorials • Mentorship • Access to JGU library • Gym and sports facilities • Health center facilities • Accommodation for two weeks (AC rooms) • 24 hour Wi-Fi • Laundry • Breakfast • Lunch • Evening snacks & Dinner • Local transport at the time of arrival / departure from / to New Delhi Railway Station (NDLS) / IGI Airport, New Delhi

The fee will be only accepted in the form of Online Payment / Demand Draft.
