Good evening sir,I am Amritpal.I want to get list of colleges in india and canada that will be the most appropriate to do B.tech in computer engeneering.I want to do B.tech in canada at a very affordable price and at a good university at a place where weather conditions is also good.I checked some of the colleges and want to ask about them and there admission procedures.The colleges are:1-University of fraser valley.2-University of Calgary.3-University of Alberta.4-University of Canada West.5-Acadia University.6-Manitoba Institute of Trades and Technology7-University of Kwantlen Polytechnic University.8-Algoma University.These are the Universities with lowest price range.Please guide me about the University and send me the names that are better than them.Also tell me that whether studying in these Universities will give me a good placement.Also guide me that should i do B.tech first or shall do diploma to get P.R. and then degree.Which way would be the best.One more thing I want to ask that B.tech in computer is a good opinion or not from job point of view for coming days.Please guide me.I will be very thankful to you.Thank You

I want to first try for NDA air force pilot but then would likely to go for private pilot

or else I should do mechanical or computer science engineering
