About me

I have been doing Bharatanatyam for six years now, and I have also performed a lot. I am at an advanced level currently. I am very interested in it and I am working on pursuing this interest.

Umail Queries

May 14, 2020

The course that I would be looking for is probably research (biology) related but I am a bit confused as there are many courses that are more or less that same and I am having trouble picking one as the exams you have to write are different for each one, the subjects I will have to take also differ a little and certain courses are the best in only specific colleges. For example: Biotechnology, Bio medical engineering and b. Tech and more. It would really help if you could compare these with me in detail and help me figure out which course is the one that I am looking for. Thank you.
