About me

I am an all-rounder student. Not only good in academics, but also good in other skills like arts, computers, sports (table tennis, lawn tennis and badminton), playing with instruments (piano and guitar), theatre. I've not only participated in such competitions, but have also used my determination and creativeness to win them. Hence, I'm not a student who is only tilted towards studies and academics, but I equally have an inclination towards other extra-curricular activities as well.
