Dear sir,

My daughter Priyal Shah studying in Xth SSRVM mulund has upgraded to Univariety grow product. She wants to take the stream selection test but as soon as she clicks it , she is being asked to pay 2360 to start the test . On clicking start test she is being asked to enter a discount code.

On chatting with an online counsellor yesterday she told us that there is some server issue. I received a call also and was told that it will get sorted out. But still no solution.

Today while chatting with online counsellor she told to write mail for a discount code.

Please give the discount code for the same and do the needful.
