About me

I am a shy and reserved sort of boy who when needs be can be displaying good leadership qualities. Good enough in a few sports like football as a goalkeeper and average volleyball and throwball player. Badminton is a bit above average. A student with lots of potential to constantly improve.

Subject: Some queries about my career options

To: BSRaman <bsraman64@gmail.com>

Good evening,

I am Amoghaasourish I have certain doubts related to the career options I want to pursue.

1. My line of attention is basically automobile engineering with biofuel engineering too. Now, in my school in class 11 we get options to choose either the Science sector or the FITJEE sector in the Science branch. In the Science sector it comprises of Science with Bio & Computer options with an overall lookout at all subjects. In FITJEE however we have certain differences like there is a more outlook towards engineering and stuff. Plz guide which sector I should choose. Are there different exams and papers for FITJEE courses and ICSE board papers for class 12?

2. At what age can a PhD be achieved? What are the qualifications you require? How to tackle? How many years of study do you require? Plz reply Q1 after answering this question.

3. What kind of preparation should be adopted by me stage wise plz guide if there can be any.

4. What kind of average percentage is required to get into a good engineering college as per the average marks cut out?

Warm regards, Amoghaasourish
