Physics	Travel and Tourism	
B	C	

## Umail Queries

---

April 29, 2020

Thank you for the clarification.  
Vatsal Faria

Hi Vatsal, Thank you for your email. So your subject selection should depend on what type of career you are interested in. If you are not looking at any Science related careers then Commerce is a good option. However, if you want to keep both your options open, it is recommended that you take Science. You can always take an undergraduate program in a Business related course after studying Science in grade 11 and 12 but you can't take a Science related program in the undergraduate level after studying Commerce in grade 11 and 12.  
I hope this makes sense to you.

Hello, ma'am, I'm Vatsal. I attended your webinar yesterday and I had a question about subject decision. I just passed tenth and I had taken science so is it a good step to choose commerce instead?
