## Engineering Branch Selector Benefits

This report shares brief knowledge about all the major Engineering Branches.

With this Report you will get an answer to which Branch of Engineering you can opt for.

This report helps in matching your work interest with specific real life work situations as per different Branches of Engineering.

This report is very comprehensive, lucid, easy to understand and the results are displayed in the form of Table and Graph.

The report has been scientifically designed, formulated and customized in a unique manner for you.

This report provides you with personalized preferential analysis of different engineering branches.

Akula, this graph depicts your scores on engineering categories. Locate your first longest bar followed by the others.

	Flying and Mechanics		Construction and Structures
	Manufacturing Research & Practices		Of Surface and Substrates
	Application of Bioprocess		Chemicals Compounds Study
	Agro based		Application of Biology
	Application of Electricity & Electronics		Machines & Tools
	Natural Resources in water		Natural Resources on Earth
	Software Design		Chemical Research

Table showing interpretation of the result

Engineering Group	Score	Engineering Branch in the Group	Position on Graph
Flying and Mechanics	15	Aeronautical Engineering	1
Construction and Structures	13	Architecture Engineering	2
		Civil Engineering	2
Manufacturing Research & Practices	13	Production Engineering	2
		Manufacturing Engineering	2
Of Surface and Substrates	12	Ceramic Engineering	3
		Paint Technology	3
Application of Bioprocess	10	Leather Technology	4
		Pulp and Paper Engineering	4
		Textile Engineering	4
Chemicals Compounds Study	10	Plastic Technology	4
		Polymer Technology	4
		Rubber Technology	4
Agro based	9	Agriculture Engineering	5
		Food Technology	5
Application of Biology	8	Biochemical Engineering	6
		Biomedical Engineering	6
		Biotechnology	6
Application of Electricity & Electronics	7	Electrical Engineering	7
		Electronics Engineering	7
		Instrumentation Engineering	7
		Optical Engineering	7
		TeleCommunication Engineering	7
Machines & Tools	7	Automation and Robotic Engineering	7
		Automobile Engineering	7
		Mechanical Engineering	7
Natural Resources in water	6	Marine Engineering	8
		Naval and Ocean Engineering	8
		Petroleum and oil Engineering	8
Natural Resources on Earth	5	Environmental Engineering	9
		Material and Metallurgical Engineering	9
		Mining Engineering	9
Software Design	5	Computer Science Engineering	9
		Information Technology	9
Chemical Research	4	Chemical Engineering	10
		Nuclear Engineering	10

- » Akula, this graph depicts your potential to study all the Engineering categories so that you can select the right Branch accordingly.
- » Potential refers to capacity, strength and caliber. Graph is divided into six equal sections : Very High, High, Above Average, Average, Below Average and Very Low.
- » A descriptor is added to all the sections where your score might fall in the next page.

Table showing interpretation of Potential Graph

Category	Description
Very High	Branch scores placed in this range are at very high position on the graph. As an engineering aspirant you should feel very confident about selecting these branches where your true potential will be utilized. Your abilities and interest are completely in consonance with the potential required to study these branches as well as to work as a professional in this Area. Although you are the right person to select and study these Branches yet we would recommend you to maintain the good study habits regularly and study with keen interest.
High	Branch scores placed in this Range are comparatively at High position on the graph. As an aspirant engineer you can go about selecting these. Although you are able enough to select and study these branches yet we would recommend you to study regularly, keep in touch with good class fellows and professors to remain motivated and guided also maintain the good study habits regularly and study with keen interest.
Above Average	Branch scores placed in this range are an above average position on the graph. As a prospective engineer can be enthusiastic about selecting these branches. Your abilities and interest are above average and you are blessed with the potential required to study these branches. We would recommend you to study hard regularly, keep in touch with good class fellows and professors to remain motivated and guided. Maintain the good study habits and try to develop applied knowledge apart from theoretical facts.
Average	Branch scores falling in this range are an average position on the graph. As an engineering aspirant you should firmly decide before selecting these branches. We would recommend you to study very hard regularly, keep in touch professors to remain motivated and guided. You need good study habits regularly and study with keen interest. Also try to develop applied knowledge apart from theoretical facts. Do not believe in Rote memory and develop more of conceptual knowledge for further implications.
Below Average	Branch scores falling in this range are at a below average position on the graph. As a hopeful engineering student you should notice this score level. Selecting these branches might not be a right decision for you in long run. It might not give the opportunities where your true potentials will be utilized. Try to match your abilities and interest in some Branch with the average to Higher score range to study these area. Although you might get the chance to select and study these branches yet we would not recommend you to select them. By personal choice and strong will if you still select these Branches you will have to study extremely hard and regularly, attend all the classes.
Very Low	Branch scores falling in this range are at very Low position on the graph. As an engineering aspirant you should notice and consider this alarming score level. Selecting these branches might not be a right decision for your true potentials to be utilized. Try to match your abilities and interest in consonance with the average to higher score range branches to study these as well as to work as a professional in that Area. Although you might be able to select and study these branches yet we would not recommend you to select them.
