

ADVANCED PLACEMENT

Most four-year colleges in the United States and colleges in more than 60 other countries give students credit, advanced placement or both on the basis of AP Exam scores. By entering college with AP credits, you'll have the time to move into upper level courses, pursue a double-major or study abroad.

The successful completion of Advanced Placement classes has benefits during both the college application process and undergraduate life.

What is the Advanced Placement program?

Advanced Placement is a 37 course program offered by the College Board. Courses are taught at local high schools and allow students to participate in college level courses and possibly earn college credit while still in high school. Most high schools and colleges participate in this program to give students opportunities to earn college credit or advanced standing when they enter post secondary studies.

What are the advantages of taking an AP course?

AP courses prepare a student for college. Numerous studies show that students who have taken AP classes, demonstrate a higher level of success in college. Students also acquire academic skills and an increase in self-confidence in preparation for college studies. Students who take AP classes, have the opportunity to earn high school and college credit. This not only saves time and tuition, but if a student has accrued many college credits, it would also save on room/board because of earlier college graduation.

How does an AP class differ from other high school courses?

AP classes are challenging and rigorous, and aligned with university courses. They will require more effort on the student's behalf, so students should be motivated and willing to tackle this challenge.

What AP courses/exams are offered?

World Language & Culture	Social Studies	Science
French Language	Macroeconomics	Biology
French Literature	Microeconomics	Chemistry
German Language	European History	Environmental Science
Italian Language & Culture	Comp Government & Politics	Physics B

Art History	English Literature	Calculus AB	Computer Science A	Music Theory
Studio Art	English Language	Calculus BC	Computer Science AB	
		Statistics		

Will I receive college credit?

Each college determines the scores to be accepted for credit, but generally, a score of at least a 3 is awarded credit. Colleges may award three or more credits per exam, so you have to check with the college to which you are submitting scores or applications.

Best Wishes

Univariety Team

Our goal is to help you make the best decisions regarding your higher education. We will guide you on multiple post college options in India or internationally.

You are advised to take responsibility of your domicile and reservation status and factor that into your decisions. Univariety does not advise on the impact of either domicile or caste based reservation in colleges in India.
