

## Subject Profiles

### English

A confident girl, Dakshita is assertive and has no inhibitions about expressing her opinions in matters pertaining to issues both inside and beyond the boundaries of the classroom. An amiable person Dakshita is a popular member in her peer group. She is particular about her academics and aspires for good grades. Dakshita also enjoys delving into the vagaries of the language. She needs to reach out and make a mark for herself in the arena of public speaking.

### Economic

Dakshita presents her answers well and is generally able to apply concepts well to situations, which is indicative of a good understanding. However, she needs to be more consistent in her effort, given the sheer volume of content that has to be addressed. If Dakshita has to do justice to her abilities of a good grasp over concepts, a more structured practice is required.

### Accountancy

Dakshita is an intelligent and curious student who enjoys the subject. She is participative and confident during discussions in class and constantly connects past learning to new concepts. She however, needs to be more punctual in her submissions. Regularity to school will also help her to be more consistent with the subject and improve her grades further. Best wishes for the next session.

### Business Studies

Dakshita is an active participant in class interactions and I was really happy with the way she summarized the text into points during her self-study time in class. She now needs to channelize her ability. Presentation and clarity of thought are her strengths but motivation is what will get her started and a focused and regular plan for academics is what will get her going. I am sure that Dakshita will make both an integral part of her life in the coming year and will score the high grades she is capable of.
