

Your Personality

Your personality type is ISTJ:

Introversion (I) vs. Extraversion (E)

How we interact with the world and where we direct our energy.

Introversion

- Focus attention inward
- Enjoy tasks that require concentration
- Work best on one project at a time
- Work at a careful, steady pace
- Consider things fully before speaking

Extraversion

- Focus attention outward
- Enjoy a variety of tasks
- Seek out and need other people
- Work at a rapid pace
- Need to talk through their ideas

■ iNtuition

Sensing (S) vs iNtuition (N)

What kind of information we naturally focus on and remember.

Sensing

- Focus on "what is"
- Like working with what can be seen and touched
- Apply past experience to solving problems
- Need specific and realistic directions

iNtuition

- Focus on "what could be"
- Enjoy theory and speculation
- Like thinking about the future and possibilities
- Need to use their imagination

Thinking (

Thinking (T) vs. Feeling (F)

Make decisions logically and impersonally, or use personal values.

Thinking

- Are motivated by achievement
- Enjoy analyzing problems logically
- Make fair and unbiased decisions
- Need to weigh the pros and cons to make decisions
- Can be tough negotiators

Feeling

- Motivated by work that is meaningful
- Sensitive to how issues affect people
- Like helping others and being appreciated
- Need decisions to be congruent with their values
- Need to work in a friendly environment

Judging (J) vs. Perceiving (P)

More structured (finalize decisions) or more spontaneous (keep options open).

Judging

- Enjoy work that allows them to make decisions
- Prefer a predictable work pattern and environment
- Work towards completing their responsibilities before relaxing
- Like to maintain control of their projects

Perceiving

- Enjoy flexible and changing work situations
- Like to be able to respond to problems as they arise
- Are more satisfied with fewer rules and procedures
- Need to have fun in their work

Your Personality Profile

Quiet, realistic and practical, you communicate in a style that is clear, simple and direct. A careful observer, you notice details that interest or relate to you and have a good memory for past experiences. You think things through before sharing your insights and are cautious about change. Responsible and steady, you strive to do your best in every situation.

Conscientious and logical, you like to make sensible decisions and keep things orderly and efficient. Organized and productive, you have a great ability to concentrate and get things done. You set high standards for yourself and for others, like to be judged on your merits, and are fair and consistent when dealing with other people. You take your commitments seriously and prefer people who are genuine and reasonable.

You trust proven facts and experience and tend to be skeptical of untested ways. Patient and willing to wait, you may miss opportunities if you hesitate too long. You may focus too intently on tiny details and lose sight of the larger context or purpose.

When you can't see a way out of a bad situation, you may become discouraged. A very private person, you're generally not inclined to share your feelings or reactions. You like to be prepared and tend to dislike surprises, change and uncertainty.

You value order and stability and can be somewhat inflexible due to your strong sense of right and wrong. You may insist that others conform to your way of doing things and resist trying other, less conventional, methods.

Because of your calm and cool exterior, you may appear indifferent to what's going on around you. You don't usually share information about yourself or your views unless asked directly by people with whom you are comfortable.

You described your profile as:

Learning

Strengths	Challenges
Organized	Focus on minute details
	Dislike abstract or theoretical
▼ Careful, accurate	concepts
Excel at memorization	Perfectionist, may procrastinate
☐ Deadline-driven	Distracted by group learning
Independent learner	Need time to process
icarrier	

Recommendations

The following recommendations are based on your results. Consider each and select the ones you think would work best for you.

For Learning Activities

- You learn best when material is presented in a logical, straightforward manner and the concepts are factual or concrete in nature. If you're having difficulty grasping a concept, ask your instructor for some practical examples. If you understand how the information could be applied in a real-life situation, it will make more sense to you.
- Approach each assignment as a goal to be achieved. Note the due date and required outcomes. If unclear about expectations, ask your instructor for more information. Break the goal into steps and work through each until the assignment is complete.
- You are extremely observant, continually taking in facts and remembering them. This helps you to understand situations and develop solutions to problems. However, you can become overwhelmed with too many details. That can make an assignment feel monumental and you may end up delaying or not completing it. Review the requirements and look for ways to simplify your research. Remove the unnecessary details and focus on the key points.
- Because you rely on your knowledge of facts and past experience, you need time to absorb new information and reflect before acting upon it. When you have something to think through, try exploring the idea further. Think of ways it may connect to something you already know. Read up on it or discuss it with a teacher or mentor.

For Learning Environments

- Ensure your course selections consist mainly of practical subjects that are directly related to your career goals. Apply for internships, co-ops or work-study programs that will allow you to gain real-life experience in your field of interest.
- You learn best in a quiet, productive environment that gives you the option of working on your own or with a small group. For your most challenging study, try to find a peaceful spot without distractions where you can concentrate. This might be a room at home or a quiet location in a public place such as a library or park.
- You prefer structure and predictability. Look for an educational setting that is compatible with your conventional outlook and desire for order. Seek out well-defined programs, courses with clear objectives and instructors who provide thorough instructions and use fair grading methods.
