### **Your Personality Profile**

You tend to be deep, complex and creative. Your direction in life is guided by your tightly held personal values. Intrigued by original ways of looking at the world, you're inspired by innovation and creative problem solving. You are good at influencing others to embrace positive change in their own lives by gently, steadily setting an example for them. With a richly developed inner life, your intuition helps you discover meaning and new possibilities.

Initially private and reserved, you are capable of great warmth and compassion for people you know well. You make decisions carefully, taking the time to consider every consequence in full before making your choice. A person of great integrity, you remain true to your beliefs, even if it means defying other people. You value harmony and cooperation and use praise and encouragement to motivate others and win their trust.

Your obliging nature can turn to stubbornness when others disagree with your ideas and vision. You are most interested in your own unique ideas and are annoyed when they are not possible. You may not pay enough attention to details and overlook important facts. Without sufficient information, your conclusions may be flawed.

Very aware of others' feelings, you are sensitive to criticism and can be negatively affected by conflict or hostility. Because you feel so strongly about things, there's a chance you may be too resolute and judgmental. Once you've made up your mind, you may be unwilling to consider differing views.

You tend to be organized, efficient and inventive, and are responsible and respectful. You like your plans to be settled and need plenty of time to prepare for changes, so sudden diversions can be stressful. You like spending time alone and, while you may enjoy socializing with close friends, you aren't usually the one to initiate things. You're a good listener and have a talent for recognizing the deeper meaning in every experience and interaction. People are often astonished by your insights.
