Your Personality Profile

You are a logical, active, forthright person. You are very observant and live in the moment, constantly evaluating people, ideas and activities around you. Energetic and motivated by excitement, you crave action. Realistic, curious and pragmatic, you don't hesitate to speak your mind and believe people should take responsibility for their actions. You are spontaneous and playful, enjoy being the focus of attention and can often make things entertaining.

Good at noticing and remembering specific details, you assess and quickly respond to immediate problems, but are less adept at long-range problem solving. You are a skilled negotiator, good in a crisis and comfortable with a certain amount of risk taking. You are able to make difficult decisions when necessary, using logic and the facts available.

Because you live so entirely in the present, you try to avoid planning much in advance. This can wreak havoc with deadlines and other time-sensitive commitments. You're not inclined to consider future implications or work out hidden meanings. You tend to be skeptical of untested possibilities unless you have previous experience with which to compare them.

Casual and easygoing, you rarely take things too seriously. You adapt easily to change, improvising when necessary. You dislike following rules, especially those you consider pointless, and you resist others' attempts to impose restrictions or controls on you. You may have difficulty respecting people in positions of authority. In general, however, you are pretty relaxed and tolerant of others.

You sometimes abandon your duties before they're completed and prefer starting new projects to finishing existing ones. Your ability to quickly deal with problems as they arise often helps you get through troublesome situations. Lively and carefree, you may have difficulty focusing on your responsibilities when you'd much rather be having fun.
