Your Personality Profile

Sensitive and idealistic, you strive for inner harmony. You are a loyal and empathetic friend, devoted to the people and issues you care about. While you may appear cool or detached at times, you have very strong and passionate feelings. You trust your personal reactions and perceptions and use your values to guide your life.

Curious about possibilities, you enjoy many creative endeavors. You can be an original thinker and like using your imagination. Personally invested in everything you do, you can be very persuasive about your dreams and ideas -- but only share them with people you trust. Thoughtful and complex, you are not especially interested in imposing your views on others. You are very protective of your privacy and highly selective about your friends.

When working on a cause you believe in, you can lose yourself in the project and neglect other pressing issues. You are very sensitive to tension and prefer to avoid conflict at all costs. You have trouble letting go of past hurts and may hold grudges. You tend to see only the good in those you care about, and risk being easily disappointed.

You need creative ways of expressing yourself. You are not especially realistic or logical, and sometimes go off course with your projects. A perfectionist, you have very high standards and may be unwilling to share your ideas until they are flawless. You can be hypersensitive to criticism and tend to take all feedback personally. Without feedback, you may fail to make necessary adjustments and end up with unworkable or unfinished projects. You need to ask for constructive advice and listen to it with objectivity.

	Look for programs that are compatible with your core values, where you can be true to yourself and pursue your quest for meaning and harmony. Some areas that may be of interest include the arts, humanities, theoretical, philosophical, educational or humanitarian fields. 	Look for an educational setting that is welcoming, tolerant and supportive, with an emphasis on cooperation, diversity and creative self-expression. Seek out approachable, inspirational instructors. Your ideal learning space is a caring, friendly environment where you can learn on your own or with a small group. When you need time alone to reflect, find a peaceful spot away from others. This might be a room at home or a quiet location in a public place such as a park, library or place of worship.
	Participate in extracurricular activities that allow you to focus on causes or issues you care about and be able to feel like you're making a difference. For example, you could get involved with the school newspaper or a community arts organization, help out with a literacy program, volunteer at a local charity or offer one-on-one tutoring to other students.

Recommendations

The following recommendations are based on your results. Consider each and select the ones you think would work best for you.

For Sending and Receiving Communication

A good listener and deeply insightful, you have a remarkable ability to understand other people's motivations. You
can use this perceptiveness, together with your other strengths, to support others, help them feel good about themselves and guide them in finding solutions to their problems.
While you don't seek out the spotlight and aren't quick to share your feelings with others, you express yourself well. You likely excel at writing and can be a very capable public speaker when the topic is something you feel strongly about. You can use these strengths to promote your cause and help others understand and support it.
You tend to be quite guarded around people you don't know well. This can make it difficult for others to get to know you and may cause them to see you as somewhat cold or distant. You, in return, may feel unappreciated or

little about yourself. This can lead to a meaningful discussion and greater understanding.

Supportive and encouraging, you likely provide plenty of praise and thoughtful feedback to others. You appreciate positive feedback yourself, but may find constructive criticism very difficult to take. When receiving corrective feedback, understand that it's intended to help. It's not an attack on you as a person. Try to focus on the problematic issue or behavior and make a plan to address it.

misunderstood. Look for shared interests that will help you relate to the other person, and be willing to open up a

While you enjoy being with people, you are most comfortable with one-on-one conversations and may find it tiring dealing with large groups of people. If you're exhausted after lengthy periods of interaction, spend some time on your own to recharge.
