ENTRY REQUIREMENTS

UNDERGRADUATE PROGRESSION PROGRAMMES

Progression Programmes are groups of specialised learning blocks or 'levels' that prepare participants with the skills and knowledge to enter the fashion industry.

Each course is structured in two (2) distinct levels ranging from a foundation introductory level, working through to a higher comprehension of skill and study. This enables for 'flexible learning' whereby the participant can choose when to build on their experience, by progressing from one level to another, giving them complete control on their own progress and achievement.

On successful completion of the all two levels of the programme participants have the necessary skills to enter the industry in the areas of fashion design and fashion business.

Participants successfully completing the Undergraduate Progression Programmes in Mumbai have the opportunity to further excel in design, creativity and research, by opting to a study pathway at one of Istituto Marangoni's School's in Italy, Milano or Firenze. On successful completion of that programme they will be awarded the 3-year Undergraduate Diploma from the European school. The addition of a short intensive module of Culture and English Language is required for participants wishing to progressing abroad for European Undergraduate Programmes.
