Engineering Branch Selector Benefits

This report shares brief knowledge about all the major Engineering Branches.

With this Report you will get an answer to which Branch of Engineering you can opt for.

This report helps in matching your work interest with specific real life work situations as per different Branches of Engineering.

This report is very comprehensive, lucid, easy to understand and the results are displayed in the form of Table and Graph.

The report has been scientifically designed, formulated and customized in a unique manner for you.

This report provides you with personalized preferential analysis of different engineering branches.

Dhruv, this graph depicts your scores on engineering categories. Locate your first longest bar followed by the others.

	Software Design		Construction and Structures
	Agro based		Machines & Tools
	Natural Resources on Earth		Manufacturing Research & Practices
	Chemical Research		Flying and Mechanics
	Natural Resources in water		Application of Bioprocess
	Application of Electricity & Electronics		Of Surface and Substrates
	Chemicals Compounds Study		Application of Biology

Table showing interpretation of the result

Engineering Group	Score	Engineering Branch in the Group	Position on Graph
Software Design	20	Computer Science Engineering	1
Construction and Structures	17	Information Technology	2
Agro based	15	Architecture Engineering	2
Machines & Tools	15	Civil Engineering	3
		Agriculture Engineering	3
		Food Technology	3
		Automation and Robotic Engineering	3
		Automobile Engineering	3
Natural Resources on Earth	14	Mechanical Engineering	4
		Environmental Engineering	4
		Material and Metallurgical Engineering	4
		Mining Engineering	4
Manufacturing Research & Practices	13	Production Engineering	5
Chemical Research	12	Manufacturing Engineering	5
		Chemical Engineering	6
		Nuclear Engineering	6
Flying and Mechanics	12	Aeronautical Engineering	6
Natural Resources in water	11	Marine Engineering	7
		Naval and Ocean Engineering	7
		Petroleum and oil Engineering	7
Application of Bioprocess	10	Leather Technology	8
		Pulp and Paper Engineering	8
		Textile Engineering	8
Application of Electricity & Electronics	10	Electrical Engineering	8
		Electronics Engineering	8
		Instrumentation Engineering	8
		Optical Engineering	8
		TeleCommunication Engineering	8
Of Surface and Substrates	10	Ceramic Engineering	8
		Paint Technology	8
Chemicals Compounds Study	9	Plastic Technology	9
		Polymer Technology	9
		Rubber Technology	9
Application of Biology	2	Biochemical Engineering	10
		Biomedical Engineering	10
		Biotechnology	10

- » Dhruv, this graph depicts your potential to study all the Engineering categories so that you can select the right Branch accordingly.
- » Potential refers to capacity, strength and caliber. Graph is divided into six equal sections : Very High, High, Above Average, Average, Below Average and Very Low.
- » A descriptor is added to all the sections where your score might fall in the next page.

Table showing interpretation of Potential Graph

Category	Description
Very High	Branch scores placed in this range are at very high position on the graph. As an engineering aspirant you should feel very confident about selecting these branches where your true potential will be utilized. Your abilities and interest are completely in consonance with the potential required to study these branches as well as to work as a professional in this Area. Although you are the right person to select and study these Branches yet we would recommend you to maintain the good study habits regularly and study with keen interest.
High	Branch scores placed in this Range are comparatively at High position on the graph. As an aspirant engineer you can go about selecting these. Although you are able enough to select and study these branches yet we would recommend you to study regularly, keep in touch with good class fellows and professors to remain motivated and guided also maintain the good study habits regularly and study with keen interest.
Above Average	Branch scores placed in this range are an above average position on the graph. As a prospective engineer can be enthusiastic about selecting these branches. Your abilities and interest are above average and you are blessed with the potential required to study these branches. We would recommend you to study hard regularly, keep in touch with good class fellows and professors to remain motivated and guided. Maintain the good study habits and try to develop applied knowledge apart from theoretical facts.
Average	Branch scores falling in this range are an average position on the graph. As an engineering aspirant you should firmly decide before selecting these branches. We would recommend you to study very hard regularly, keep in touch professors to remain motivated and guided. You need good study habits regularly and study with keen interest. Also try to develop applied knowledge apart from theoretical facts. Do not believe in Rote memory and develop more of conceptual knowledge for further implications.
Below Average	Branch scores falling in this range are at a below average position on the graph. As a hopeful engineering student you should notice this score level. Selecting these branches might not be a right decision for you in long run. It might not give the opportunities where your true potentials will be utilized. Try to match your abilities and interest in some Branch with the average to Higher score range to study these area. Although you might get the chance to select and study these branches yet we would not recommend you to select them. By personal choice and strong will if you still select these Branches you will have to study extremely hard and regularly, attend all the classes.
Very Low	Branch scores falling in this range are at very Low position on the graph. As an engineering aspirant you should notice and consider this alarming score level. Selecting these branches might not be a right decision for your true potentials to be utilized. Try to match your abilities and interest in consonance with the average to higher score range branches to study these as well as to work as a professional in that Area. Although you might be able to select and study these branches yet we would not recommend you to select them.
