## Engineering Branch Selector Benefits

This report shares brief knowledge about all the major Engineering Branches.

With this Report you will get an answer to which Branch of Engineering you can opt for.

This report helps in matching your work interest with specific real life work situations as per different Branches of Engineering.

This report is very comprehensive, lucid, easy to understand and the results are displayed in the form of Table and Graph.

The report has been scientifically designed, formulated and customized in a unique manner for you.

This report provides you with personalized preferential analysis of different engineering branches.

Varun, this graph depicts your scores on engineering categories. Locate your first longest bar followed by the others.

	Manufacturing Research & Practices		Natural Resources on Earth
	Software Design		Agro based
	Application of Bioprocess		Chemical Research
	Chemicals Compounds Study		Construction and Structures
	Flying and Mechanics		Application of Biology
	Natural Resources in water		Machines & Tools
	Of Surface and Substrates		Application of Electricity & Electronics

Table showing interpretation of the result

Engineering Group	Score	Engineering Branch in the Group	Position on Graph
Manufacturing Research & Practices	14	Production Engineering	1
Natural Resources on Earth	12	Manufacturing Engineering	1
		Environmental Engineering	2
		Material and Metallurgical Engineering	2
		Mining Engineering	2
Software Design	12	Computer Science Engineering	2
		Information Technology	2
Agro based	11	Agriculture Engineering	3
		Food Technology	3
Application of Bioprocess	11	Leather Technology	3
		Pulp and Paper Engineering	3
		Textile Engineering	3
Chemical Research	11	Chemical Engineering	3
		Nuclear Engineering	3
Chemicals Compounds Study	11	Plastic Technology	3
		Polymer Technology	3
		Rubber Technology	3
Construction and Structures	11	Architecture Engineering	3
		Civil Engineering	3
Flying and Mechanics	11	Aeronautical Engineering	3
Application of Biology	10	Biochemical Engineering	4
		Biomedical Engineering	4
		Biotechnology	4
Natural Resources in water	10	Marine Engineering	4
		Naval and Ocean Engineering	4
		Petroleum and oil Engineering	4
Machines & Tools	8	Automation and Robotic Engineering	5
		Automobile Engineering	5
		Mechanical Engineering	5
Of Surface and Substrates	7	Ceramic Engineering	6
		Paint Technology	6
Application of Electricity & Electronics	3	Electrical Engineering	7
		Electronics Engineering	7
		Instrumentation Engineering	7
		Optical Engineering	7
		TeleCommunication Engineering	7

- » Varun, this graph depicts your potential to study all the Engineering categories so that you can select the right Branch accordingly.
- » Potential refers to capacity, strength and caliber. Graph is divided into six equal sections : Very High, High, Above Average, Average, Below Average and Very Low.
- » A descriptor is added to all the sections where your score might fall in the next page.

Table showing interpretation of Potential Graph

Category	Description
Very High	Branch scores placed in this range are at very high position on the graph. As an engineering aspirant you should feel very confident about selecting these branches where your true potential will be utilized. Your abilities and interest are completely in consonance with the potential required to study these branches as well as to work as a professional in this Area. Although you are the right person to select and study these Branches yet we would recommend you to maintain the good study habits regularly and study with keen interest.
High	Branch scores placed in this Range are comparatively at High position on the graph. As an aspirant engineer you can go about selecting these. Although you are able enough to select and study these branches yet we would recommend you to study regularly, keep in touch with good class fellows and professors to remain motivated and guided also maintain the good study habits regularly and study with keen interest.
Above Average	Branch scores placed in this range are an above average position on the graph. As a prospective engineer can be enthusiastic about selecting these branches. Your abilities and interest are above average and you are blessed with the potential required to study these branches. We would recommend you to study hard regularly, keep in touch with good class fellows and professors to remain motivated and guided. Maintain the good study habits and try to develop applied knowledge apart from theoretical facts.
Average	Branch scores falling in this range are an average position on the graph. As an engineering aspirant you should firmly decide before selecting these branches. We would recommend you to study very hard regularly, keep in touch professors to remain motivated and guided. You need good study habits regularly and study with keen interest. Also try to develop applied knowledge apart from theoretical facts. Do not believe in Rote memory and develop more of conceptual knowledge for further implications.
Below Average	Branch scores falling in this range are at a below average position on the graph. As a hopeful engineering student you should notice this score level. Selecting these branches might not be a right decision for you in long run. It might not give the opportunities where your true potentials will be utilized. Try to match your abilities and interest in some Branch with the average to Higher score range to study these area. Although you might get the chance to select and study these branches yet we would not recommend you to select them. By personal choice and strong will if you still select these Branches you will have to study extremely hard and regularly, attend all the classes.
Very Low	Branch scores falling in this range are at very Low position on the graph. As an engineering aspirant you should notice and consider this alarming score level. Selecting these branches might not be a right decision for your true potentials to be utilized. Try to match your abilities and interest in consonance with the average to higher score range branches to study these as well as to work as a professional in that Area. Although you might be able to select and study these branches yet we would not recommend you to select them.
