

The Right Link to Success

PreUni *Plus*

For Excellence in **PU + CET**

2014-16

I PU: Are You Ready for the New Syllabus?

Karnataka State has adopted the **National Core Curriculum** as its syllabus for I PU from 2012-2013, to align with the national benchmarks in PU education. Since entrance exams for higher education are based on the National Core Curriculum, this change will be advantageous to all students of Karnataka. While the opportunities open up exponentially, you need to make a huge leap in your academic performance to cope with the new standards.

In the 2 years of PU, you will need to perform at your best, to pursue your career dreams - be it medicine, engineering or pure sciences. Success in today's context depends on excellence in **board exams** as well as **CET** or any other entrance exam like **JEE (Main)**.

Especially in times of change like these, I PU for several reasons, assumes great importance. It can as well be the golden year. It gives you the time to **assess your strengths, nurture good study habits and build the foundation** in an unhurried manner. And mind you, you will not have time for all this later when you move up to II PU. So, if you are aiming for success in Board as well as entrance exams, you need to start preparation from I PU, and not from II PU. More importantly, 25-30% questions in CET and upto 50% in JEE (Main) are from the topics of I PU.

For effective guidance and support in these formative stages, get the advantage of PreUni Plus, a 2-year program for excellence in PU and CET.

PreUni Plus: Unique Features

PreUni Plus prepares you for excellence in the basics necessary for II PU and CET right from I PU. The following are our strengths that make the difference.

Courseware:

- Printed courseware for PU and CET
- Graded exercise questions and problems for the Board for each topic
- Self-assessment tests for CET for every 5 teaching sessions
- Unit tests for CET and Board for each module

Regular teaching sessions:

- Focus on dual objectives of strengthening concepts and improving performance in exams. Teaching for Board & CET happens simultaneously.
- Sessions planned out for the entire year

Excellent faculty: BASE faculty includes over 150 highly qualified and trained professionals, who are in touch with the exam patterns and changing trends.

Tests & feedback: Regular tests are conducted all through I PU and II PU to measure the student's progress. They include:

- **I PU:** - Monthly Unit tests for PU and CET
- **II PU:** - Monthly unit tests for Board & CET
 - Chapter-wise online tests for both I PU and II PU

Feedback to parents: BASE believes that parents have an important role to play in enabling the excellence of their children. Regular feedback will be provided to parents on attendance and performance levels of their children.

Mentoring: The faculty will provide valuable advice that can motivate and enhance the student's performance.

What BASE Achievers Say

The weekly tests and the self-assessment tests helped me to be up-to-date regarding the subject and avoided the stress during the last few days before the exam.

- **Megha. P**, Now studying at Bangalore Medical College

Exhaustive material covers almost all kinds of topics one can expect in the exam. Constant support from faculty ... was also encouraging.

- **Harsha N Bhushan**, Now studying at BMS College of Engineering

I PU coaching at BASE helped me secure 91.66%. My CET answering capacity has also increased.

- **Monisha N V**, Sira

BASE has excellent teachers who helped me get this result.

- **Niranjan S**, Now studying at BMS College of Engineering

First PU - Time to Build Skills

Looking back after long years, you will realize why your I PU was very significant. While most students look at II PU as the time when the future gateways open, the skills acquisition actually happens in I PU. In simpler words, habits - the ability to put in long hours at the desk, working with unceasing concentration, a willingness for problem solving, enjoying your journey of learning... are all aspects of your personality that need to be nurtured from early on. Getting these right in II PU stage is akin to learning in wartime.

- Dr. H.S. Nagaraja,
Founder Director, BASE

Real exam simulated conditions: Students will be familiarized with real exam situation.

Online learning platform: base online academic support will include online tests, online additional work sessions, synopsis, solutions, discussion forum etc. Option to have courseware as online e-book will be available. Online services will be available both on computers and Android-based tablets.

Students and parents will be provided a unique ID and password, to access reports on attendance and performance.

Subjects

You can choose from among PCM, PCMB and PCME (at select branches).

Students who target Medicine as their first choice career option after Plus 2, should ideally opt for **Medical Excel** from BASE. For students who are equi-focused on both Medical and Engineering, PreUni Plus provides the perfect balance.
